### ***Overland Park, KS --***

Hause Actuarial Solutions, a full-service actuarial consulting firm in Overland Park, Kansas, is pleased to announce the promotion of Sean Dermody, MBA to Chief Operating Officer (COO). In this new position, Sean will be assuming more of the operational management responsibilities — implementing strategy, overseeing project management, contracts, accounting, budgets, and business development functions.

Sean has been with Hause Actuarial Solutions, Inc. for over twenty years. He is one of the company's directors and has served as our Director of Business Development and Business Director. In those roles, Sean has been instrumental in building the firm's client base and growing the firm's capacity while ensuring standards of service met and/or exceeded expectations.

Prior to joining Hause, Sean enjoyed a 10-year career working in various service and sales roles for one of the world's largest environmental services companies — where he was recognized as a top performer by product line and by budget.

Sean earned a Bachelor of Science degree from the University of St. Francis (Joliet, Illinois) and Master of Business Administration from Mid-America University (Olathe, Kansas).

Randall Stevenson, President of Hause Actuarial Solutions, says, "Over the past decade I have observed Sean consistently provide sound advice, demonstrate prudence, and enlighten us with his insights and innovations. He has been a close and trusted advisor for both Chris Hause and me. Having the most training and expertise in business operations of anyone in the firm, Sean was the obvious choice of the team member to head our operations. His assuming this role will have the added benefit of increasing our actuarial capacity."
